BRISBANE WATERFRONT APARTMENTS NAMED BEST IN QUEENSLAND

A luxurious riverfront development in Brisbane has been named the best apartment project in Queensland at last Friday's premier industry award night.

Forty Park Avenue, located in East Brisbane and developed by property specialists Jadecorp, was named 'Queensland Apartment Project of the Year' and 'Brisbane Apartment Project of the Year' at the Queensland Housing Industry Association (HIA) annual awards night.

Jadecorp Director of Marketing Maria Dracakis said the awards highlighted the quality of the exclusive riverside enclave.

"We had a unique vision for this development, one which was to integrate vast river views with Queensland's amazing outdoor lifestyle, while maintaining privacy and the finest designs and European finishes.

"We are honoured to receive recognition for this vision," she said.

Ms Dracakis said it was also gratifying to receive the honour for the development at the end of what has been a challenging 12 months for the industry.

"As a Company we are tremendously proud of the developments we continue to deliver, and these apartments in particular make no compromises in terms of the highest quality. It is a place anyone would be proud to call home."

Forty Park Avenue features five full floor luxury apartments located on the edge of Mowbray Park and the Brisbane River.

HIA Judges said the Jadecorp development marked the crossroad of the grand style and space afforded by eras past fused with the ultimate form and function of the present.

"From the stunning entry foyer to the beautifully appointed lifts with individual access to private lobbies, every detail compliments the next. Every feature is presented with impeccable taste."

Forty Park Avenue was also jointly awarded 'Brisbane Kitchen Designer of the year' and 'Queensland Kitchen Designer of the year.'

Jadecorp is a full service property and construction company, specialising in everything from design to development. The Brisbane based company has created over xx developments across Brisbane since forming in 1997.
